

# Wave Series Displays To Install

- A: (2) Straight Pipes + (1) Center support
- B: (2) Curved Pipes
- C: (4) Corner sections
- D: Fabric Graphic
- E: (2) LED lights

step: 1

There is an elastic cord inside the Straight Pipes (A) / Center support(A) / Curved Pipes (B).

Connect all the pipes together, according to the sticker number on each pipe. Make sure it is same sticker number before you joint the pipes.

For example: ⑦ on the Corner sections(C) meet the ⑦ on the Curved Pipes(B).

step 4

Put the graphic on the frame, just like you put a pillowcase on a pillow.

step 5

Make sure the teeth of zipper was close to each other before zip it up

step 3

Hand-tight the LED light (E) on the top of frame, and connect with the power cord.

**Please Note:**  
Don't make the lights too tight on the frame, as it will probably damage the graphic!

step 7

Completed the installation!

Connect all the pipes together, according to the sticker number on each pipe.
